Washington, DC 20018 | imagogreen@gmail.com | 804.253.5767

US Citizen – Sustainability & Energy Program Manager

PROFESSIONAL SUMMARY: With a solid foundation in green workforce training, energy program management, and Leadership in Environmental Energy and Design expertise, I will serve as an asset to your facility management team. Workforce Training Vendor & Energy Conservation Program Manager with 10 years of experience supporting environmental, mechanical, electrical and plumbing MEP CADD Departments at various industry leading Engineering Firms. Effectively used corporate knowledge to become self employed Workforce Trainer and Energy Efficiency Contractor. Experience includes working on both large complex new green building constructions and smaller residential energy audits for utility rebate programs. Experience implementing energy program incentives and training Energy Technicians to perform direct installs of energy and water conservation measures required by utility rebate program. Effective at resolving technical problems in field when they arise, then establishing updated best practices to maintain program guidelines.
